

**National Interagency Coordination Center
Incident Management Situation Report
Monday, November 12, 2018 – 0800 MT
National Preparedness Level 1**

National Fire Activity

Initial Attack Activity: Light (84) new fires
 New large incidents: 0
 Large fires contained: 0
 Uncontained large fires:** 3
 Area Command teams committed: 0
 NIMOs committed: 0
 Type 1 IMTs committed: 2
 Type 2 IMTs committed: 1

**Uncontained large fires include only fires being managed under a full suppression strategy.

[Link](#) to Geographic Area daily reports.

In support of Super Typhoon Yutu, IMT 2 (Dalrymple) is mobilizing to Saipan, Northern Mariana Islands.

Active Incident Resource Summary						
GACC	Incidents	Cumulative Acres	Crews	Engines	Helicopters	Total Personnel

Southern California Area (PL 4)

New fires: 38
 New large incidents: 0
 Uncontained large fires: 2
 Type 1 IMTs committed: 1

Woolsey, Ventura County Fire Department. Cal Fire IMT 1 (Bravo). IMT also managing the Hill fire. Four miles southeast of Simi Valley, CA. Brush, chaparral and tall grass. Extreme fire behavior with uphill runs, running, long-range spotting and running. Several communities, energy and communication infrastructure threatened. Evacuations, road, area and trail closures in effect.

Hill, Ventura County Fire Department. Six miles northeast of Camarillo, CA. Brush and chaparral. Minimal fire behavior with smoldering. Reduction in acreage due to more accurate mapping.

*** Changes in some agency YTD acres reflect more accurate mapping or reporting adjustments.

***Additional wildfire information is available through the Geographic Areas at <http://gacc.nifc.gov/>

Predictive Service Discussion: A strong Arctic cold front will push through the West and the Plains and into the south central states. Very cold air will push to the Interior West, creating strong offshore winds across the southern California mountain ranges and increasing critical fire weather conditions in the low humidity conditions. A stalled front along the central Gulf Coast will produce heavy rain across southeastern Texas to Georgia with rain and thunderstorms extending to the Mid-Atlantic states. Temperatures will be very cold across the northern and central Plains to the Upper Midwest, very warm in southern California, and seasonal elsewhere. Florida will be hot and humid.

Proper Use of Trigger Points

Weather - Fire Behavior Category

Accurate situational awareness (SA) requires constant reassessment of conditions (existing or potential) that may impact the safety and effectiveness of tactics. Monitoring for the 18 Watchout Situations and establishing operational / environmental limits (“trigger points”) ahead of time can help to focus SA, prompt reassessment, and help you re-evaluate the risk of current actions. The following items are things to consider in your planning and discussion. Remember, trigger points are NOT decision makers, but serve as predetermined cues to prompt you to re-evaluate the current and potential situation and associated risks, and help you to determine and implement the proper course of action.

- Preplan! Don't wait until you're in the wrong place at the wrong time – with no time.
- Trigger points should be based on measurable factors such as:
 - RH
 - Winds
 - Fire Behavior
 - Topographical boundaries
 - Time constraints/Time of day
 - Time/distance to safety zones
 - Loss of suppression resources
 - Other operational considerations (e.g., firefighter fatigue, loss of lookouts or communication, weather change)
- As you approach predetermined trigger points, go through the Risk Management Process to help you decide if a change in tactics is required. (See the [Incident Response Pocket Guide](#))
 - Gather information to assure good Situational Awareness
 - Assess hazards to anticipate serious risks
 - Establish hazard controls to mitigate serious risks
 - Make decisions based on your ability to mitigate those serious risks
 - Evaluate effectiveness of current actions
- Command/Leadership responsibilities when changing tactics
 - Communicate the changes to your subordinates, as well as to adjacent forces and up the chain of command
 - Account for all your people
 - Make sure everyone knows and follows the new plan
